

## Kagan Cooperative Learning: Structuring for Active Engagement

**June 12-13, 2018**

**8:30 a.m. to 3:30 p.m. (CDT)**

Workshop #068-18

**GRREC Office & Training Facility • 230 Technology Way • Bowling Green, Kentucky**

GRREC is pleased to present *Kagan Cooperative Learning: Structuring for Academic Engagement* for teachers and administrators of all grade levels. Kagan Structures, which are supported by a large body of research, are highly effective cooperative learning strategies designed to create full engagement for all students. In this two-day session, participants will learn easy ways to use Kagan Structures as a part of every lesson, creating greater engagement, deeper understanding of content, improved retention, and greater liking of class and content. If you want more fun in teaching, highly engaged students who love your classroom, and elevated test scores, this workshop is for you!

*Dr. Daren Harris has been in public education for 27 years. He has taught every grade level, K-12, and has been involved in secondary administration for the past 14 years. Dr. Harris currently serves as principal of Republic High School in Republic, Missouri. A major accomplishment in his career was assisting in the planning and overnight of a new Republic High School, which opened in January of 2010, and currently has 1350 students in grades 9-12. Dr. Harris was first introduced to Kagan Cooperative Learning while teaching 4<sup>th</sup> and 5<sup>th</sup> grade students and witnessed the immediate benefits the structures provided across all content areas. He was formally trained in cooperative learning in 2010 and consistently uses Kagan Structures in professional dialogue sessions with fellow educators. Dr. Harris completed his undergraduate degree at Missouri State University and earned a doctorate in educational leadership and policy analysis from the University of Missouri-Columbia in 2011.*
