

As parents, we all want our children to hit every pitch over the fence, out of the park.

Well, the fence in Kentucky has been moved. Meeting new college and career readiness standards—not just meeting minimum competencies—makes this a whole new game.

With new rules and new equipment, there's no comparing the old to the new. We simply keep swingin' for the fences.

Powerful standards

Accurate tests

Winning results

*Game changed? Kinda.  
But our kids are still swingin' for the fences!*
